

Module 7: Video 2 Transcript, Multisensory Learning

Sensory Corners and 'Sensory on a Shoestring'

Themed Umbrellas

Plain umbrellas can be wonderful for simply cutting down visual clutter in a space

They have been used in sensory rooms for many years to get projected images from wheel projectors or iPads in sensory rooms close to learners

But themed umbrellas can be great for that busy classroom if you are doing a story when a learner is distracted by the visual clutter in the classroom space or maybe a learner needs help regulating the sound in the room.

With a little imagination you can make a themed of story brollies. Here are some we use...

Umbrellas, individualized, instant and so much fun.
